Anteraja NextGen AI Academy

CERTIFICATE

No. 1864/MAC.BT/XI/2026

Proudly presents this certificate to

Fauzan Taufikurohman

Successfully completed the **Anteraja NextGen AI Academy** by MAXY Academy from September 14 to November 6, 2026.

Jakarta, 6 November 2026

Andy Bintoro
CTO And Co-Founder
Maxy Academy

UUID: 4db2cd8a-0ac8-466f-b8d6-846ab4c01b77

FAUZAN TAUFIKUROHMAN — FULLSTACK DEVELOPER ANTERAJA NEXT GEN AI ACADEMY | NO. 1864/MAC.BT/XI/2026

NO	LEARNING MODULE	LEARNING OUTCOMES	JP
1	CLI and Git Fundamental	Command line basics; what MCP is and how it connects AI tooling to VSCode/Antigravity; Git fundamentals (commit, branch, merge, pull request workflow)	1
2	MCP and Git Collaboration	Command line basics; what MCP is and how it connects AI tooling to VSCode/Antigravity; Git fundamentals (commit, branch, merge, pull request workflow)	1
3	PRD and FRD	How to map a user journey through a product; how to translate business needs into a Functional Requirements Document	1
4	User Interface	Relational database concepts: entities, relationships, normalization; how to read and build an ERD	1
5	HTML and CSS	Semantic HTML, Basic Schema.org structure, CSS3 fundamentals Bootstrap grid/utilities	1
6	JS and JQuery	ES6+ fundamentals, DOM manipulation, How jQuery works alongside modern JS	1
7	React Fundamentals	Master JSX, functional components, props, and state management	1
8	React Advanced	React Hooks, Context API, Routing, and SPA Architecture	1
9	React Advanced 2	React Hooks, Context API, Routing, and SPA Architecture	1

FAUZAN TAUFIKUROHMAN — FULLSTACK DEVELOPER ANTERAJA NEXT GEN AI ACADEMY | NO. 1864/MAC.BT/XI/2026

NO	LEARNING MODULE	LEARNING OUTCOMES	JP
10	PHP Fundamentals	Syntax, variables, control structures, functions, then OOP basics, form handling, and sessions	1
11	PHP (Hypertext Preprocessor)	Syntax, variables, control structures, functions, then OOP basics, form handling, and sessions	1
12	Laravel	Routing, controllers, Blade templating, migrations, basic CRUD	1
13	SQL	Querying and joining relational data, aggregate functions	1
14	API, Postman, and Chatbot	REST API design principles, testing endpoints with Postman, basics of a simple chatbot (rule-based or API-connected)	1
15	Python and Data Mining	Python fundamentals, basic data cleaning/mining concepts (pandas basics)	1
16	Big Data Fundamentals	5 Vs of Big Data, distributed processing concepts (Spark/BigQuery vs. standard SQL/Pandas), handling high-volume logs.	1
17	Puppeteer + Automation (+ scraping)	Browser automation with Puppeteer; ethical web scraping fundamentals if included	1
18	Geolocation	Geolocation APIs, Google Maps integration basics	1

FAUZAN TAUFIKUROHMAN — FULLSTACK DEVELOPER ANTERAJA NEXT GEN AI ACADEMY | NO. 1864/MAC.BT/XI/2026

NO	LEARNING MODULE	LEARNING OUTCOMES	JP
19	Vibecode, Stitch, AI Studio, Antigravity	An end-to-end AI-assisted design-to-code pipeline; Rapid prototyping, AI-generated UI design, prompt/model testing, then implementation	1
20	Database Overview	Relational database concepts: entities, relationships, normalization; how to read and build an ERD	1
		Total Learning Hours (JP)	**20**
